Vision of the school announcement

15th June 2022

Dear Parents/Carers,

At the start of this school year a project began to set the vision of the school. This involved consulting all of the school community including; staff, children, parents, carers and governors. This work aims to help us create and maintain a positive ethos and identity for the school community which all parents, staff and pupils have helped to create and will play a part in establishing and maintaining.

I am very pleased to inform you that the new vision of the school will be:

“At Westfield Nursery and Primary school, we aim to create a nurturing school community, where all children embrace their learning curiosities, achieve their own personal best and become life-long learners. We promise to: be resilient, be respectful, be unique, be our best!”

The shortened version of ***“Be resilient, be respectful, be unique, be our best”*** will become the school strapline and had now been added to our website.

Thank you for all your contributions to the process which started back in September. We feel these statements capture the ethos of the school and the wider local community, the aspirations we hope to instil in the children, the standards our staff strive to achieve and the caring nature of the school.

Kind Regards

Miss A Quirk
Executive Headteacher
